WHY DO WE COMPETE?

Festivals and Competitions are a great way for students to gain performing experience and receive valuable feedback on their dance skills from an adjudicator.

The most important element required for participation and success at dance competitions is commitment. Each dancer's regular attendance at classes is essential if to put a polished and entertaining choreography routine together. The experience of success through teamwork is our goal for our festival classes. If this is your first year participating in competitions with us, please do not hesitate to ask any questions.
